Abstract

L^AT_EX eases our pressure in writing thesis & reports because of its powerful features such as automatic hyphenation, table of contents, figures & tables, powerful bibliography tool, citations, Automatic Numbering of Chapter, sections, figures & tables, its beautiful fonts, professional output...

Writing too much of code for gives bad impression on L^AT_EX. But now we have numerous gui tools like gedit-latex-plugin, T_EXmaker, Lyx & emacs, which are very much user friendly.

This VTU-project-report-template is written using popular document class, “Memoir”. In the coming chapters, we hav given small help manual required for writing report & at the end about template
